Highfield 2 Day First Aid at Work Requalification

Qualification Details: Because First Aid at Work certificates is valid for a three year period only, all delegates will be required to complete a requalification course. This includes both the theory and practical assessments which are the same as the ones conducted on the 3 Day First Aid at Work course

KEY FACTS:

Guided learning hours (GLH)	12
Assessment Method	Theory and practical assessments

Pre-requisites: The HSE regulations state that all delegates undertaking this course must be in possession of their First Aid at Work qualification. It must not have expired beyond 28 days of the expiry date as shown on their First Aid at Work Certificate. If the certificate has expired beyond the 28 day period then it will be necessary for the delegate to attend a full 3-day First Aid at Work course.

Entry Guidance: Candidates who are not in possession of a current 3 Day First Aid at Work certificate or whose current 3 Day First Aid at Work certificate is not due to expire for four months or longer will not be allowed to attend this course.
